# Time Role 2024

Pearl Pullan

2 min read · Mar 11, 2024

...

Company: Insight Enterprises

**Role:** Business Analyst/ Product Manager

**Are you an international student?:** Yes

**If yes, What is your visa type?:** F1-OPT

**When did you begin applying?:** I started applying for jobs in Jan 2023 since I was graduating in May 23

**Strategy used when applying:** I tried tailoring my resume based on the job description. I applied to 10–15 companies daily.

**Platforms used for applying to full time roles:** LinkedIn, Company websites

**Platform through which you applied for this role:** Company website

**Number of rounds:** 3

## **Round 1**

**Role of interviewer in the company:** Hiring Manager

**Questions asked by interviewer:** It was a pre-screening interview, Questions asked were mostly to check if I fit the role. Eg: previous experiences, education and courses.

**Questions you asked:** How big is the team and little more about the company.

**Duration before the mail for the next round:** I was informed on the call itself, same day interview.

## Round 2

**Role of interviewer in the company:** It was a panel -Hiring manager, systems manager , Chief Information Engineer ( there was one more person cannot remember the name or role )

**Questions asked by interviewer:**

1. Introduce yourself
2. Situation based questions, like how do I handle conflicts or how do I explain technical concepts to non-technical person
3. Few questions on my resume and projects
4. Questions on technical skills, like efficiency with JIRA, PPT and Excel

**Questions you asked:**

1. How is the company atmosphere?
2. More about exciting and upcoming projects.

**Duration before the mail for the next round:** 1 week

## Round 3

**Role of interviewer in the company:** Director of Access Center SF

**Questions asked by interviewer:**

The questions were the same

1. Tell me about yourself and your past work
2. Situation based questions, like how do I handle conflicts or how do I explain technical concepts to non-technical person
3. Few questions on my resume and projects

**Questions you asked:**

New upcoming projects and the current projects ( I asked about the project since she was my reporting manager)

**Duration before the mail for the next round:** 1 month and they gave me the decision.

## **Final thoughts**

Stay consistent with job applications

**How did you prepare for interviews?**

- Researched about the company
- Prepared for behavioral questions
- Prepared everything on the resume

**Resources that helped:**

- Google

- ChatGPT

**Software Development Engineer**  
Seattle, WA  
Mar. 2020 – May 2021

- Developed Amazon checkout and payment services to handle traffic of 10 Million daily global transactions
- Integrated Iframes for credit cards and bank accounts to secure 80% of all consumer traffic and prevent CSRF, cross-site scripting, and cookie-jacking
- Led Your Transactions implementation for JavaScript front-end framework to showcase consumer transactions and reduce call center costs by \$25 Million
- Recovered Saudi Arabia checkout failure impacting 4000+ customers due to incorrect GET form redirection

### Projects

**NinjaPrep.io** (React)  
Platform to offer coding problem practice with built in code editor and written + video solutions in React

- Utilized Nginx to reverse proxy IP address on Digital Ocean hosts
- Developed using Styled-Components for 95% CSS styling to ensure proper CSS scoping
- Implemented Docker with Seccomp to safely run user submitted code with < 2.2s runtime

**HeatMap** (JavaScript)  
Visualized Google Takeout location data of location history using Google Maps API and Google Maps heatmap code with React

- Included local file system storage to reliably handle 5mb of location history data
- Implemented Express to include routing between pages and jQuery to parse Google Map and implement heatmap overlay
