WurQ Inc : Product Manager Full-Time Role 2023

Pearl Pullan

2 min read · Mar 18, 2024

...

Company: WurQ Inc. — www.wurq.io

Role: Product Manager (Full-time)

International Student Status: Yes, on an F1 visa.

Application Timeline: Began the journey as a Co-op in mid-2022, securing the role around December 2023 and commenced working in January 2023 until August 2023 as a Coop and Started my full time from December 2023.

Application Strategy: Targeted to startups, as I wanted to get that startup exposure and wanted to learn more.

Application Platforms: Primarily utilized LinkedIn, NUworks, Indeed, and Glassdoor.

Successful Application Platform: NUworks

Interview Rounds: 2

Round 1

Interviewer Role: CEO

Questions Asked:

- Interest in Product Management
- Preference for startups
- Involvement in sports and fitness
- Technical insights from my biomedical engineering background that aligns with the company's focus on smart wearables for CrossFit athletes

Candidate's Questions:

Inquired about the expectations and objectives for the role over the next 6–8 months.

Follow-up: Received an invitation for the next round within 3–4 days.

Round 2

Interviewer Role: Co-founder & Head of Product

Format: In-person interview

Discussion Points:

- Began with a personal introduction, delving into past product experiences, particularly at my previous company Freshworks

- Explored my approach to designing a roadmap for startups
- Tools utilized in product management projects
- Asked about my experience in Sports. Since it's a sports startup, my background in sports was a very big advantage.

Candidate's Questions:

How would you design a roadmap — I wanted to make sure how close was I to his answers.

Final Thoughts

Interview experiences are very uncertain. You'll never know what's going to come! The key is being well-researched, genuine, articulate, and ensuring to present yourself effectively to engage in a meaningful dialogue.

Preparation Techniques:

- Focused on product management case studies available on YouTube
- Insightful books such as “Decode and Conquer” and “How to Crack the PM Interview”
- HBS case studies for a comprehensive understanding

 Amazon.com

Software Development Engineer

Seattle, WA

Mar. 2020 – May 2021

- Developed Amazon checkout and payment services to handle traffic of 10 Million daily global transactions
- Integrated Iframes for credit cards and bank accounts to secure 80% of all consumer traffic and prevent CSRF, cross-site scripting, and cookie-jacking
- Led Your Transactions implementation for JavaScript front-end framework to showcase consumer transactions and reduce call center costs by \$25 Million
- Recovered Saudi Arabia checkout failure impacting 4000+ customers due to incorrect GET form redirection

Projects

 NinjaPrep.io (React)

- Platform to offer coding problem practice with built in code editor and written + video solutions in React
- Utilized Nginx to reverse proxy IP address on Digital Ocean hosts
- Developed using Styled-Components for 95% CSS styling to ensure proper CSS scoping
- Implemented Docker with Seccomp to safely run user submitted code with < 2.2s runtime

 HeatMap (JavaScript)

- Visualized Google Takeout location data of location history using Google Maps API and Google Maps heatmap code with React
- Included local file system storage to reliably handle 5mb of location history data
- Implemented Express to include routing between pages and jQuery to parse Google Map and implement heatmap overlay
